DETAILED ACTION

Election/Restrictions

1. This application encompasses three species of the inventive subject matter, as for example, the species of Figures 1, 3, and 4 respectively. Pursuant to 35 USC §121, applicant is required for a complete response to (1) elect a single disclosed species, and (2) list all claims readable on the elected species including and any claims subsequently added (MPEP 809.02 (a)).
2. Applicant is further advised that a mere argument alleging that a generic claim exists or is allowable will not satisfy a species election requirement. For a complete response, applicant must elect a single species and list the claims readable on that species as set forth above.
3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. A telephone call was made to Sanjivpal Gill on 3/17/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.
5. During the telephone conversation, it transpired that Applicant filed a PCT Application of the instant invention with a Foreign Patent Office, and that a Search Report was issued by said Foreign Patent Office. According to the Applicant, the IDS filed with the USPTO contained all the references cited in said report, however the

report itself has not yet been filed. Applicant promised to fax said report to the Examiner within a short time.
